

## Status of Existing and Proposed Marine Protected Areas (MPAs) for Whales and Dolphins in the Mediterranean and Black Seas by ACCOBAMS *(Agreement on the Conservation of Cetaceans of the Black Sea, Mediterranean Sea and contiguous Atlantic Area)*

On 25th October 2007, at the Third Meeting of the Parties of ACCOBAMS, held in Dubrovnik, the Parties adopted Resolution 3.22 supporting in principle the creation of the MPAs shown above, as well as others to be defined, and welcoming the criteria and guidelines for setting up additional MPAs in the region which include management plans to address threats to cetaceans. The Parties have agreed to begin the process to work with local communities to designate these and other areas as set out in the criteria and guidelines.

Please note: Boundaries for proposed areas are approximate as suggested by current research and will need to be drawn more precisely on a case-by-case basis as additional research is obtained.
